SURE INSURANCE

Commits Suicide

By Hanging

The community was shocked
this week by the tragic death
of William Thompson, a
farmer of the south district.
The deceased was found by his
wife on the morning of Mon-
day, July 27, about 11 o'clock
in his granary, where he had
committed suicide by hanging.
According to testimony of his
wife, there had been nothing
unusual in the manner of the
deceased man that morning to
account for his action. He had
spoken to neighbors on the
phone about going to cast his
vote and had attended to
household duties in a normal
manner.

His wife discovered the
tragedy by going to call her
husband for dinner and noticing
that the granary door was un-
pudlocked. She severed the
rope with a broad knife after
an unsuccessful attempt with
the scissors, and summoned by
phone, Mr. W. Crocker, a neigh-
bor, who arrived on horse-
back as speedily as possible.
They did their best to resusci-
tate deceased, but to no avail.

At an inquest held in town
on Tuesday, a verdict that the
act was done by deceased dur-
ing "temporary mental depres-
sion" was returned. Deceased
was apparently in good circum-
stances and free from debt.

The funeral is to be held
today, having been postponed
awaiting the arrival of relatives
of the deceased man. Much
sympathy is felt by neighbors
and the public for Mrs. Thomp-
son.

R. A. GARDINER IS ELECTED BY LARGE MAJORITY IN FEDERAL BY-ELECTION

It was generally conceded in
this district that R. A. Gardiner
would be successful in the by-
election. Optimistic ones fore-
casted a two-to-one majority in
his favor but few looked for the
veritable landslide that took
place. It is estimated that
when full returns are in, his
majority will be from 7,000 to
8,000. The biggest surprise was
the Medicine Hat polls which
gave Mr. Gardiner a majority
of 267 votes.

Many reasons are given by
the press for Mr. Spencer's de-
cisive defeat. One reason is
poignant, that is, the people of
the west in general are disas-
trated with the federal govern-

ment as constituted and are
restless under the hard condi-
tions of the present day.

Results of District and Neighbouring Polls

Local Team

Play Good Ball at Cleveland

The Empress ball team were
away to Cleveland, on Satur-
day, July 25. The game would
have been an exceptionally
interesting contest but for two
injuries in which the Cleveland
team took airship flights. Ven-
ance occupied the mound for
Cleveland, and outside of the
aforementioned injuries allowed
but few hits. Trail, for Em-
press, hurled the ball with
deadly effect, and at the close
of the game had eight strike-
outs to his credit. Al Sturgeon
registered a home-run by one
of the cleanest and longest
drives that has been made in
local games this season. Al
and his brother Reg. help to
form one of the best infields
it has been the good fortune
for an Empress team to have.
J. Davidson was one of the
younger players included in
Saturday's team, and gave an
excellent account of himself.

The following is the score by
innings:
1 2 3 4 5 6 7 8 9
Empress-0 4 1 0 0 0 6 0 0-11
Cleveland-0 0 0 1 0 1 0 0-2

A few years ago the United
States breeders of pure-bred
cattle, recognizing the necessity
for more effective measures
for the control of tuberculosis,
arranged a conference with
officials of the Bureau of
Animal Industry at Washing-
ton, the result of which was the
adoption of what is known as
the Accredited Herd Plan,
meaning that the herd had been
thoroughly tested and found
entirely free from symptoms
of tuberculosis. The plan
proved so successful over a
thousand herds being accredited
in a brief period—that a deci-
sion was arrived at to adopt the
system in Canada. Regulations
were promulgated which came
into force in September, 1919,
and have proved gratifyingly
successful, a number of herds
having been accredited, while
many others are under test.
There is now an agreement
between this country and the
United States that cattle from
accredited herds may enter
either way, with detention or
test. Under the Municipal
Tuberculosis Order, passed at
Ottawa some years ago, and
the more recently adopted Ac-
credited Plan, compensation is
paid for animals officially
slaughtered and the owners are
permitted under regulation to
realize whatever they can from
the sale of the carcass.

C.G.I.T. Clubs and Boy Scouts Hold Open-Air Concert as Farewell to Rev. and Mrs. G. G. Pybus

A farewell concert was held
in the open-air outside of the
residence of Miss Rowles, Tues-
day evening. The occasion was
in honour of the Rev. and Mrs.
G. G. Pybus having been ap-
pointed to charge of the Union
Church, at Kitascot. The enter-
tainment was given by the
C.G.I.T. clubs and Boy Scouts
assisted by adult members of
the congregation. A present-
ation was made to Mr. and
Mrs. Pybus from the towns-
folk and also from the W.M.S.
Mr. Pybus spoke well of
the boys and girls and ex-
pressed appreciation for the
gifts and kindness, and said it
was with pleasant remem-
brances and regret that he was

leaving his numerous friends
of the town and district

Wins I.O.D.E. Essay Prize

Miss Edith Rowles, is the
winner of the prize for the
Essay Competition, conducted
under the auspices of the local
Chapter of the I.O.D.E. The
competition was confined to
pupils of grades in the Empress
Public school who are taking
lessons in English and Canadian
history. Elwyn Martin was ad-
judged a very close contestant.
The prize is a very handsome
book entitled, "Britain Over-
seas," which contains many
beautifully colored illustrations.
The judges were Mesdames J.
Wilkinson, G. Peterson & Rev.
G. G. Pybus. The winning essay
will be published in a subse-
quent issue of this paper.

To Everywoman

MANY women lack savings accounts, thinking
their surplus too trifling to bank. Small
amounts, accumulated gradually, are your strength
in an emergency.

Marconi Visualizes Results Of Wireless Control On Future Naval Warfare

"The country with the most efficient directional wireless is bound to win the next war. The rapidity with which experiments are succeeding in England in this phase of wireless control will surely result in a revolution in modern ideas of naval warfare."

"I had in mind a gigantic clash between two navies manning in mid-ocean, directed by marcon hands on the land or in the air."

"The most efficiently directed navy is bound to drive the weaker navy from the seas and then the seaboard and bases of the latter will be entirely at the mercy of the strongest."

This Senator Guglielmo Marconi, who just returned from a two-month cruise in the Mediterranean on his yacht *Electra*, summed up the possibilities of this newest arm of the marvellous wireless art in the following words:

"The possibilities along the line are so great that even I am afraid to say too much. No one knows his limits. Already scientists stand agape at what the future may bring. Experiments in England in directional wireless are already successful in the emergency stages, and are being improved and becoming so much more efficient that they will be new surprises."

"I understand that America is so impressed that the greater part of the summer naval maneuvers will be devoted to introducing its wireless in this most important development by using obsolete dreadnoughts directed by wireless as targets for attacks from the air."

"It can readily be seen that if one ship can be controlled in this manner the future navies will be simply a matter of time and development."

"If a war ever comes when this is perfected it will be more terrible than ever."

Marconi visualized monster navies—battleships patrolling seas, controlled by master admirals speeding through space four or five thousand feet in the air. His description of what would happen if two of these navies of equal size should meet, automatically discharging their weapons in torpedoes, outrides Jules Verne and H. G. Wells.

Now that the position of a ship even two or three thousand miles distant is easily ascertainable by Marconi's wireless stations, Marconi explained the possible use of a gigantic super-torpedo, bigger than the largest submarine, with a radius of three thousand miles and containing tons of explosive.

"It will be easy to discharge this monster weapon from land and direct it through the ocean until it targets are found. It would be worth wasting many of these if they succeeded in destroying an enemy dreadnought," said Marconi.

The inventor characterized the whole field of wireless research as a fertile field for horrible developments.

"At every stage of progress we are finding new and unexpected possibilities, such as, for instance, the use of batteries of guns on land and sea," he said.

"Of course, every evil possibility brings counter-measures and the mysterious electric force in the air will be harnessed by defensive as well as offensive purposes in war time."

More Canteen Money For Dominion

Canada's Share Said to Be About Two Million.

The report of the British parliamentary commission which has been studying the disposition of army canteen funds has been completed and now is being reviewed by the Army Council.

Although no forecast is forthcoming, it is probable that Canada, which has already received over a million dollars from the funds, will obtain a further sum in the neighborhood of twice that amount.

Germany Cannot Enter League

France and Britain Are Both Opposed To It.

"There is not the slightest possibility of Germany being admitted to the League of Nations in the near future—certainly not as things stand at present," declared an official of the British Foreign Office. France, the British official pointed out, is equally opposed to the idea, and Great Britain has not the slightest inclination to depart from the French view.

Canada's Healthy Livestock

Report of Last Two Years Is Highly Satisfactory.

The report of the Veterinary Director-General recently issued covers the two years, the first for the year ending March 31, 1919, and the second part for the year ending March 31, 1920. The health of Canada's livestock during both years is shown to have been highly satisfactory. In fact it is easy to believe that Canada is the healthiest country in the world for all breeds of livestock. No country can claim to be absolutely free from ailments in its cattle, horses, sheep or game any more than it can from any other kind of stock.

But Canada, it is safe to assert, comes nearer to the ideal state than any other land. None of the epidemic diseases that cause most alarm to sanitary officials, such as gland fever and foot-and-mouth disease, cattle plague and contagious pleuro-pneumonia are found within our borders. Diseases that exist to a very limited extent are, however, kept under control and are diminishing in number year by year.

Excesses in the number of livestock in the north, Saskatchewan and Manitoba and in those provinces where few cases are reported. All the outbreaks, the Veterinary Director-General is able to state, have been efficiently dealt with and the disease has not been spread to other parts of the country.

Where hog cholera and cattle mange have appeared vigorous action has immediately been taken with the result that contagion has been everywhere checked and restricted entirely. Regarding hog cholera, experience shows that nearly all cases originate on premises where garbage is fed to the animals.

If properly done, it is stated to be an effective safeguard. Full statistics are given in the report of the activities undertaken all over the country which indicated the remarkable results achieved. A marked increase is shown in the number of livestock imported for exportation in the year 1919 compared with the previous year, the figures being 340,000 as compared with 100,000.

Nitrate Sold To Farmers

Will Be Used to Increase Fertility of U.S. Farming Soil.

More than 100,000 tons of nitrate, originally produced to help in blowing the German armies off the map of Belgium and France, this year will be put to the more peaceful work of increasing the fertility of United States farming soil.

The signing of the armistice the day before the arrival of the United States Department of Agriculture 100,000 tons of nitrate at a average price of \$1.50 per ton.

To this quantity is added 40,000 tons received from Chile by the Department of Agriculture too late for use in the war.

The total quantity of 140,000 tons will be sold by the Department of Agriculture to farmers under the National Soil Fertilization Act, which provided for its purchase and sale by the government to farmers at cost.

Good Coal In Upper Skeena Field

Chairman of B.C. Company Advocates Digging Railway.

In giving evidence before the Fuel Commission at Ottawa, Mr. G. Scott, chairman of the British Columbia Skeena Coal Company, stated that the coal field, situated on the Upper Skeena, is about 1,200 square miles; that the quality of the coal is sub-bituminous and semi-bituminous; that the estimated quantity is over 100 million tons.

It is controlled by his company is 47 miles long, and that the building of 150 or 180 miles of railway would give access to the coal fields.

Riel's Brother Dies

Joseph Riel, brother of Louis Riel, leader of the Northern Rebellion, died recently in Winnipeg.

Joseph Riel, 62 years old and at the time of the revolt led by his elder brother, who was executed at Regina in 1885, was a long-time follower of the camps of the ill-fated Louis.

Charles Murphy, General Manager, Canadian Pacific Railway Company, Western Lines.

Blind Soldier May Become Famous

Work of Untrained Artist Wins Place In Paris Salon.

Exhibit No. 3314 at the salon of French artists in the Grand Palais is a small statue of a blind man leaning on his rifle. It was submitted by one Bernard Fédot, with thousands of other statues, in competition for a place in the salon and the award to Fédot was made by judges who had no knowledge of the sculptor.

It now becomes known that Bernard Fédot is an ex-soldier who was blinded by a German shell which tore through his eyes in the battle of the Somme. He is now in the hospital at the home in Lachapelle, France, in the department of Yonne, a peasant, who had no dealings with art or sculpture.

He is now known as a blind man, a peasant, who had no dealings with art or sculpture.

A Northern Niagara

Few Have Heard of Twin Falls On Hay River.

With the rush into the interior of Northern Canada, due to the oil fields, heavy spots of the Far North are being discovered and exploited.

A recent issue of The Edmonton Journal, tells of twin falls on the Hay River, just beyond the top of Alberta, which rival Niagara in beauty and magnificence.

The time will not be many years when, with better transportation facilities, when the northern hinterland will be one of the chief tourist attractions on the continent.

Successful British Tractors

Show Remarkable Hauling Power In Trial In Far East.

The merits of the British-made tractor for agricultural purposes were conclusively demonstrated during a trial on a rubber estate in the Far East.

The soil consisted of heavy sand or sand mixed with clay and rain had fallen heavily prior to the trial. Nevertheless, the driver was able to turn and manoeuvre with the greatest ease.

Further, the tractor showed its hauling power by pulling two large trucks, each about 12 tons, up hill.

Both Ways.

It is a fact that no machine is so much used as the tractor. It is a fact that no machine is so much used as the tractor.

It is a fact that no machine is so much used as the tractor.

Farmer Has Train To Feed Hogs

California Rancher Has Developed Great Labor Saving Device.

F. E. Lewis, owner of the Diamond Bar Ranch in Los Angeles county, has developed a scheme whereby he feeds 5,000 hogs in six minutes.

Two men are required this to do the work of many men without the aid of machinery. Mr. Lewis has adapted a broken down railroad system to the use of his 5,000 acre ranch on which he raises many thousands of hogs and cattle.

He has a standard gauge roadbed alongside his pens and through his pens. The hogs are loaded into flat cars to carry the feed for the hogs, and the men are required to do the work of many men without the aid of machinery.

The engine is run alongside the pens at the rate of one mile an hour and the feed put into the troughs with the help of the system of pulleys in motion keeps the feed stirred so that some of the hogs don't get the fat while others are getting it.

The engine is run alongside the pens at the rate of one mile an hour and the feed put into the troughs with the help of the system of pulleys in motion keeps the feed stirred so that some of the hogs don't get the fat while others are getting it.

Will Not Enforce Dehorning Penalties

Calgary Livestock Exchange Decides Against Change.

Calgary livestock exchange will not follow the example of the Toronto livestock exchange in making dealers pay \$100 a head on horned cattle.

The Toronto exchange imposes the dockage after January 1 next year.

Copper Throne in Jungle

Believed to Be Queen Victoria's Gift To Ashanti Chieftain.

A massive chair made of copper, which natives believe was given by the late Queen Victoria to the chieftain and used by him as a throne, has been discovered in the midst of a jungle far from human habitation.

According to native legend it was placed over the grave of the chieftain who had occupied it when alive. The natives believe that the chieftain still sits upon his old throne in spirit at certain times, and for this reason they do not dare walk over the spot.

Fastening For Longevity

Long Lived Family Had Habit of Going Without Food.

As a means to longevity fasting for two or three days at a time was suggested at an inquest at Edmonton (a suburb of London), on George Hard, aged 85.

A step-daughter of the deceased, who had been in the habit of not taking food for two or three days at a time, and he had told her that he believed in fasting.

One of them had reached the age of 103, while her grandmother attained 100.

Medical evidence showed death to be due to heart disease. Every other organ of the body was perfectly healthy. A secret of the longevity of the family was not revealed.

Paying a High Price.

France has offered to buy 100,000 dollars in the United States to pay off maturing debts and provide money for the purchase of foodstuffs and raw materials.

The rate of interest promised is 7 1/2 per cent, and as the issue will be made at the rate of \$95 per \$100 the return will be about 8 per cent.

France must need the money when it proposes such terms—Winnipeg Free Press.

War Calls a Good Many People, But Not the Kind It Ought to Kill—The "War" is a killing machine in the Albany Capital.

True Bear Stories

By OGE-MASSES (Little Clerk). (Copyrighted)

(Continued)

Well he realized that if this shot was not a fatal one his chances were good. He went on with the aim just where I had placed this eye sight. Well, I was up against it, but I could not stop or imagine the loss of the brute, so I thought of all my resolution I tried the bid.

Up back and here was Nellie's wife little head within a foot of my own. Such a relief. Looking at my watch it was twenty minutes to three, so I at once rose to the breakfast table.

On looking at the tracks I decided that the pole would catch the lead track if I straightened again and continued doing this until her line showed her to reach my camp. At breakfast, I was surprised to find the narrow path I had cut in the swamp.

RED CROSS

• Returns from all over all over
Alberta for the Red Cross
Membership campaign are
gradually being received by
the Provincial Headquarters in
this city. In many districts the
executives are not anxious to
turn in their lists until they
have got the very last possible
member. Even in the larger
centres some of the returns are
not complete, but sufficient
numbers have been received to
assure success. The Com-
mittee was lately even to
receive numerous appeals for
help. These have been chiefly
from the districts where the
cut worm has damaged the
crops.

The Red Cross Headquarters
is decentralizing their system
of relief. This will put more
responsibility on the individual
Members of Red Cross units in
various districts. Cases for
relief must be carefully investi-
gated by them. Reports of
needy cases are being investi-
gated and attended to every
day with promptness.

The Campaign has renewed
interest in Red Cross work
throughout the province.
Everywhere there is a realiza-
tion of the very large scope
of the work which the
Society hasin hand. "Not only
your dollar, but your interest
and support" has been one of
the successful slogans of the
Campaign.

ATLEE

Saturday evening, June 25,
Mr. M. W. Farr, met with a
very serious accident while
riding a horse at the Gordon
ranch. The horse threw him
and his foot caught in the
strut resulting in his being
dragged and badly kicked
by the horse, before being
rescued. He has a dislocated
shoulder, two fractured ribs,
and bruises about the head.
The Doctor was called from

Medicine Hat, and he was
taken to the Hat, by train Mon-
day morning.

Crops throughout the country
are suffering from lack of
moisture now and every one is
wishing for rain.

Mrs. Sam Hyde returned
from Calgary, Saturday night,
with a fine new baby boy.
Now Sam has a smile like the
new moon on a frosty evening.

Next Sunday, the minister
from Cavendish, will be here
to conduct services and help
with the Sunday school. Let's
all turn out and give him a
hearty reception.

Election was pulled off on
the 27, with 73 votes for
Gardiner and 38 for Spencer it
looks as if the manufacturers
association were due for a
surprise.

Johnny to Pa, "What is
a manufacturer?"

Pa, "a manufacturer, my son,
is a man who looks after the
duty on imports so the Govern-
ment won't need to bother with
it."

"Well Pa, what is the Govern-
ment?"

"The Government, my son, is

Extension Courses for Farmers

Agriculture being the basic industry of the country, every advance made in development of agricultural education is of national value. Recently, several provincial universities have presented extension courses for the benefit of farmers and others. To this and the educational authorities have co-operated with farmers organizations with highly encouraging results. In the case of Manitoba a course of lectures was given on rural economics and sociology, supplemented by special lectures on a variety of subjects appealing to other sections of the community. In Ontario also, the University of Toronto was induced to give a similar course. A noteworthy feature of the course was the taking of students to the stock yards, the abattoirs and other places of a practical illustrative value. It is felt that the alliance thus established between the agricultural industry and those engaged in educational work will tend to a better understanding of economic problems which affect the welfare of town and country alike.

R.M. of Mantario.

Minutes of meeting of June 18, 1921 at Orange Hall 10, 25, 29-3. Present Reeve Ardell and full council.

The minutes of the previous meeting were read and confirmed.

Cn. White.—reported that he had seen the owner of S.E. 13, 26, 28 3 in regard to right of way, and a letter was on file from him offering to sell for \$125.

Ardell.—That the surveyor be instructed to survey the proposed diversion on S.E. 13, and also on N.E. 12, 27, 28, w 3, and that the matter of settlement for compensation be left until after the survey has been made.

Walker.—That the bylaw re Hawks and Pedlars License be read a third time be sealed signed and numbered XXIX.

Jones.—That E. Bond be paid at the rate of \$30 per acre for the land actually taken for roadway from N.E. 19, 27, 27, w 3.

White.—That the R. M. Mantario 262 enter into a contract with the Department of highways to improve the road on the E. of 15 to 34, 26, 28, to the amount of

\$1000 according to specification.

Walker.—That tenders be called for approximately \$1000 of improvements on the above road to specifications which can be seen at the Municipal office advt. to appear in two issues of the *Alaska News* and *Empress Express*; a marked cheque for 5 per cent of the amount of the contract to accompany the bids. The amount to be done when completed and passed by the engineer and contract to be completed not later than Oct. 31, 1921. The contract to be awarded at the July 23rd meeting. The lowest or any tender not necessarily accepted.

Ardell.—That the councillor for Div. IV be appointed a committee to report on any change of circumstances in regard to the recipient of a Mothers' pension recently granted to a ratepayer in that Division.

Jones.—That the petition of the Mantario S.D. (proposed) be referred back to the committee until the School Act in regard to a certificate in Form L has been complied with.

McWhinney.—That a Health Bylaw for Hamlets be introduced and receive two readings at this meeting

The Bylaw was introduced. 1st. reading moved Cn. Connell. 2nd. reading moved Cn. Kivers. McWhinney.—That Cn. Walker be Deputy Reeve for three months next ensuing.

Ardell.—That this Council sit as a court of Revision on July 23 from 10 a.m. to 12 noon.

Walker.—That Cn. Jones be given authority to purchase a Nuisance Ground for the Hamlet of Mantario.

The finance Committee then examined the accounts presented; the following were found correct and on motion of Cn. McWhinney ordered paid: Empress Express Advt. 6.40, envelopes, 6.50, ditto small, 37.75; Mahoney 85 p.c. roads Div. VI, 170.00; ditto, Div. IV, 281.44; ditto, Hamlet and Digout and 85 p.c. bal. work Div. IV, 550.45; Templeton Survey stakes, 4.50; Empress Lumber Yards Culverts, Div. IV, 174.35; L. Goheen Haw. Culverts IV, 11.15; T. Harn Roads I, 6.00; R. Popkey, Roads I, 8.00; J. E. Underwood, services engineer, 300.00. "Expenses to be charged to agent, Mahoney Roads IV, 23.00; F. D. Jones Health Accut., 35.00; Sect. Trans. Postage, 5.74; Schools, 2nd. Qtr. 1321.05; Total \$5941.33.

The Council adjourned at 5 p.m. to meet again at the usual time and place on Saturday, July 23rd, 1921.

C. Evans Sargent, Sect. Trans.

Mrs. F. Botsford left on Monday for a vacation at Banff.

R.M. of MANTARIO No. 262

TENDERS

Tenders are called for approximately \$1000 road work, being improvements on roadway, East of section 15 to 24, 26, 28, 3, being Highway Grant. All bids must be accompanied by a marked cheque for 5 p.c. of the amount which will be held as guarantee for completion by October 31st. Payment will be due when work is completed and passed by the engineer. If not completed by October 31st the amount of guarantee is to be forfeited.

Specifications can be seen at the Municipal Office. Board and correspondence for the engineer must be provided by the contractor. The lowest or any bid not necessarily accepted.

The contract will be awarded at the meeting of the Council, July 23, at Orange Hall.

C. Evans Sargent, Sect. Trans.

Stewart Administration

Promises AND Performs

VERY little serious criticism has ever been leveled at the Stewart administration. This is because, in accordance with the eternal principles of Liberalism, it has been fairly and justly by the people. It has given uniformly good government of a constructive kind, unalloyed by considerations of political expediency, and always with the view of public betterment. It has stood for the square deal for everybody in everything. Its record has witnessed successfully and with flying colors the test of the keenest possible public criticism.

Albert's Upward Progress

No greater tribute to the Alberta government could be paid than that offered by Mrs. H. M. Edwards, of Macleod, president of the provincial council of women, who, in the preface to the first and second editions of her book "The legal status of women of Alberta," says that "the women of Alberta are more favored in regard to legal status than are those of any other province in Canada." Such a tribute must justly be applied to all classes in the province. Under the legislative record of Alberta's Liberal governments has been one of consistently upward progress, many of the enactments placed on the statute books having been adopted by other progressive governments of Canada and elsewhere.

For Rural Districts

Although the needs of urban communities have been well looked after, the legislation enacted for the special benefit of the rural parts of the province is of striking importance. The appropriation this year for roads, bridges, and ferries is over two and one-quarter million dollars, making a total appropriation for that purpose in five years six and one-quarter million dollars. The province has been blessed by a network of telephone lines, so that now even the most remote districts are in almost instant touch with populated centers. When unforeseeable seasons were experienced in certain portions of the province, the government did not hesitate, but paid out nearly one and one-quarter million dollars for seed grain, feed and other

relief. The "Cow Bill" has been wonderfully successful in enabling farmers in newer districts to secure cattle under government loans. Farmers are protected under another set from unscrupulous machinery and other contracts. A great deal of other and similar legislation might be mentioned. The government in all its dealings has recognized that the future development of the province rests largely with the agricultural, live stock, and dairy interests, and has endeavored to encourage them to the full extent of its power.

In the Interests of Women

Alberta women are especially favored. Alberta was the first province in Canada to grant equal provincial and municipal suffrage. A mother has equal rights with the father in their children. Married women have full control of their own property. Women have a special interest in the "Exemption from military conscription," which protects the family home from seizure under execution. A widow's interest in her husband's estate, despite provisions in a will to the contrary is also protected. Other legislation has been enacted for women. What more could a government have done for them?

Helping Rural Schools

The educational facilities in Alberta are on a high plane. In order to promote the efficiency and encourage the permanency of rural school teachers, the government pays one-third of the cost of building and furnishing the teachers' homes. Consolidated schools, where they are desired are aided by government grants. Where consolidation is impossible or not desired, three times the usual grant is made to two-room schools, so that educational facilities may be largely increased. The educational opportunity of the child in the country is now more nearly equal to that of the child in the town or city, by reason of special legislation providing for high school education in the rural districts. The government believes in providing adequate educational facilities for even the most remote districts, so that the children of settlers miles from a railroad or settlement may have a fair start in life.

THE STEWART GOVERNMENT today stands behind an imposing record of legislation, created during the last fifteen years, that has truly met the needs of all classes of people in the province. The opening up of the great north country, the provincial guarantee of irrigation lands, the guarantee to the farmer of the drainage districts, the strong protective and successful efforts to obtain wider markets for Alberta stock, legislation of a long practical line directly affecting labor, including the workmen's compensation act, the gigantic strides in health legislation, all these stand as monuments to the progressive policy of the government, and prove that as the result of the Liberal regime in this province.

Alberta Has the Most Beneficent and Far-Reaching Legislation of any Province in Canada

Tomorrow is July 1, Domini-
on Day.

Cavendish celebration to-
morrow. Picnic at Mayfield
next Wednesday.

A. J. Wright of Anna, Alta.,
was a visitor in town last week,
renewing old acquaintances.

Mr. and Mrs. H. J. Reilly
have returned to town from
Saskatoon.

E. J. Boswell made a trip to
Regina, this week.

Ed. Hayes is a guest at the
home of his parents here.

Miss Beth Gordon, left on
Wednesday, for Calgary.

Mr. and Mrs. G. M. Johnston
and family left on Monday for
Elkwater Lake to spend a vaca-
tion.

Rev. and Mrs. G. G. Pybus
and children, left on Wednesday
by auto for their new home at
Kitscoty, Alta., where Mr.
Pybus has been transferred to
charge of the pastorate of the
Union Church.

Mrs. T. Jablonski received
word on Thursday of last week,
of the death of her father at
Ivanhoe, Minn.

Many from here attended the
celebration at Bindloss, on Fri-
day last. A very large crowd
was present and the sports were
reported as being good. An
aeroplane from Hanna, was
present and a collection was
given for exhibition flight. Dr.
Michael Clark, on behalf of Mr.
Gardiner, secured a very atten-
tive audience, and those having
the pleasure of hearing him,
spoke well of his address. The
proximity of the federal by-
election and no picnic at Social
Plains helped in their share to
ward a record attendance.

ELECTIONS JULY 18

Alberta Provincial elections
have now been definitely set
for Monday, July 18. We
believe that the people of the
Red-diff constituency have been
very fortunate in their rep-
resentative, and are of opinion
that the election would endeavor
to retain his services.

Result of Elections for United Church Board

The names of the six ladies
elected to the Empress United
Church Session, and the names
of the six gentlemen elected to
the Board of Stewards are as
follows:

Session—Mesdames Storey,
Dawdy, York, Lacy, Hayes and
Miss Rowles. Board of Stew-
ards—Messrs. Hall, M. G. Boyd,
J. F. Rivers, Storey, Best, Stoult
and McLean.

ATLEE—cont.

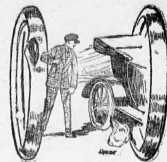

vote? Ask Spencer about it.
The Atlee basket ball girls
bloomed out in their bloomers
last night for a real honest to
goodness game. Not having
the grounds fully completed
they used a man at each end of
the ground for a basket. The
result was rather undecidable,
as the men couldn't catch the
ball for looking at the girls and
every time a man, we mean a
basket, tried to catch a ball he
got his arms around the girl in-
stead. This, of course, was a
disappointment to the girls, we
mean the other girls. Anyway
they couldn't get the ball in the
basket at all. Nevertheless
they are not discouraged and
are going to try it again some
other evening.
